

SolarBC Webinar

September 24, 2009

Dale Littlejohn, Strategy and Outreach Manager,
Community Energy Association

P: 604-628-6076, C: 604-785-5130,
dlittlejohn@communityenergy.bc.ca

How it works

- Attendees can hear, but cannot talk – reduces background noise
- Enter your PIN
- Asking questions: please type your question into the 'question and answer' section of your webinar control panel.
- Panelists will present then answer questions that I read out
- We will wrap up no later than 1pm

Audio will begin at noon.

The screenshot shows the GoToWebinar control panel interface. At the top, there is a red banner that reads "Audio On for Staff Only" and "Press *1 to Start the Broadcast for all attendees." Below this, the "Screen Sharing" section is "Stopped" and indicates "No one sees your screen". There are four icons for screen sharing: "Show My Screen" (with a dropdown menu), "Stop Showing Screen", "Give Keyboard & Mouse", and "Change Presenter". The "Dashboard" section includes "Audience View" (set to 100%) and "Attendee List" (1 | Max 1001). The "Audio" section is expanded, showing "Audio Mode: Telephone" and providing dial-in information: "Dial: 416-800-9293", "Access Code: 682126648", and "Audio PIN: 76". It also includes the instruction: "If you're already on the call, press #76# now. (and additional numbers ..)". Other sections include "Polls", "Questions", "Invite Others", and "Chat". The "Chat" section shows a "Chat Log" with a message: "Welcome to the SolarBC webinar, brought to you by the Community Energy Association". There is a text input field "[Type message here]" and a "Send" button. At the bottom, the interface identifies the webinar as "SolarBC webinar for local governments" with "Webinar ID: 641-197-707" and the "GoToWebinar™" logo.

Who we have on the line today

100 registered attendees

- Some with multiple attendees – please let me know how many at dlittlejohn@communityenergy.bc.ca
